NIKHIL TEJ D

Program Delivery | Operations | Business Analysis

nikhiltej.d25@gmail.com +91 9391848855 linkedin profile

SUMMARY

Program Delivery and Operations professional with 6+ years of experience driving execution across large-scale public initiatives through stakeholder coordination, KPI tracking and cross-functional collaboration.
Experienced in performance reporting, issue resolution and managing dependencies across concurrent programs. Complemented by hands-on exposure to business analytics, operational analysis and process improvement through independent case studies in marketplace operations and enterprise ecosystems.

EXPERIENCE

Engineering Assistant, *Government of Andhra Pradesh* 10/2019 – Present | Sri Sathya Sai District, Andhra Pradesh.

- Coordinated execution of infrastructure and welfare initiatives across multiple departments (PR&RD, SSA, RWS, APSHCL), aligning stakeholders, timelines, budgets and project deliverables.
- Delivered and monitored execution of 15+ public-sector projects (~₹10+ Cr), achieving ~90% on-time completion and impacting 20,000+ beneficiaries through structured planning, progress monitoring and execution tracking.
- Collaborated with government officials, contractors and citizens to gather requirements, identify implementation challenges and support effective project execution.
- Managed project schedules, approvals and inter-department dependencies across concurrent initiatives to ensure timely delivery and issue resolution.
- Tracked project milestones, risks and performance metrics (KPIs), providing visibility into progress and enabling proactive escalation of delivery bottlenecks.
- Prepared status reports, progress reviews and stakeholder updates to support governance, decision-making and program oversight.
- Supported cost estimation, budget monitoring and resource planning to ensure alignment with approved financial and program objectives.
- Coordinated awareness campaigns and event-driven initiatives across local communities and stakeholders.

PROJECTS

Enterprise Merchant Ecosystem Transformation, *Independent Case Study* 05/2026 – 06/2026

- Studied merchant onboarding and lifecycle challenges across Zomato, Hyperpure and District businesses operating within a shared consumer ecosystem.
- Analysed stakeholder dependencies, process fragmentation and operational bottlenecks to define requirements for a unified merchant onboarding and lifecycle approach.

Uber NCR Ride Fulfillment Efficiency Analysis, *Operational Analytics Case Study* 03/2026 – 04/2026

- Analysed operational data and developed dashboards to identify factors impacting supply-demand matching.
- Performed segmentation and root cause analysis to uncover operational bottlenecks affecting fulfillment rates.
- Presented data driven recommendations aimed at improving ride allocation and customer experience.

CERTIFICATIONS

Project Management, *IIT Kanpur* 01/2025 – 07/2025

Business Analyst Fellowship, *NextLeap* 10/2025 – 03/2026

SKILLS

Program Delivery & Operations

- Stakeholder Management & Cross-Functional Coordination
- Project Planning & Execution Tracking
- Dependency & Risk Management
- KPI Monitoring & Performance Reporting
- Escalation Management & Governance Support

Business Analytics & Reporting

- Advanced Excel (Pivot Tables, Lookup Functions, Reporting)
- Tableau (Dashboarding & Data Visualization)
- Basic SQL
- Root Cause Analysis & Problem Structuring
- Data Analysis

Business Analysis & Process Improvement

- Requirement Gathering & Documentation
- AS-IS & TO-BE Process Mapping
- Workflow Analysis & Process Improvement
- User Stories & Backlog Structuring
- UAT Support

Tools

- MS Project
- Jira, Confluence
- Lucidchart
- Google Analytics

EDUCATION

B-Tech Mechanical Engineering, *JNTUA College of Engineering, Pulivendula* 08/2014 – 05/2018

VOLUNTEERING

Conscious Planet - Isha Foundation, *Volunteer* 07/2022 – 08/2022

Delivered multimedia initiatives supporting operational departments, leading planning, content creation and stakeholder collaboration across a 5-member team.
